#### DO THEY MEAN OUR BIBLE

Here are Articles From Those Who are Deeply Interested in the Children Now in Attendance at Our Public Schools. What's the Matter With the Bible?

AKRON, O., Feb. 17, 1896.

To THE NEWS REVIEW:—In reading your welcome paper, I see quite a controversy is going on in regard to the reading of the Bible in the public schools of your city. Having been a citizen of East Liverpool for a quarter of a century, an old subscriber of NEWS REVIEW, and a lover of public schools, I would simply ask you to inform me if this Bible in question is the same one the people of this country spend millions of dollars in sending to heathen lands to civilize them? Is it the same Bible the American Bible Society is distributing, and we have been contributing to these many years? Is this the Bible our Christian mothers cling to in their old age, and hold to as their Anchor of Hope? Is this the Bible which, when the Death Angel appears, most of us are willing to have read? Is it the one that teaches us the Golden Rule? On leaving home, when a boy, and arriving at my destination of some thousand miles away, I unpacked my satchel, I found a Bible my mother placed there. I wonder if this is the same kind of book the difficulty is over in East Liverpool today? I have a picture, a scene, located in Washington City, the capital of the United States of America; among nations, classed as civilized; religious; protestant. It represents a president being sworn; his hand rests upon a Bible. Is this the same Bible some people of your city would not have read to their children when at school? If this is the one they object to, they surely have no regard for the teachings of their good old mothers. If they have proven it unfit to be read to children, what a waste of money in publishing the Bibles and the fortunes squandered in heathen lands to enlighten them, and the stupidity of an American President, and down to the home office holder, to swear on a Bible not fit to be read in an East Liverpool school. Why should the story of the Bible be rejected with its common law and wholesome guidance?

From Plymouth Rock to Golden Gate, Fear not the story to relate.

J. W. B.

MR. EDITOR:—May I ask, through the columns of your estimable paper, a question or two in regard to the Bible affair? Suppose certain individuals are elected to office, and while there they go in direct opposition to the people: can anything be done? Or, in other words, has the school board a right to say "Throw out the Scriptures," if the people say it must stay. Again, is Prof. Sanor opposed to the reading of the Bible, or is he afraid of the board? Another question: Is the board afraid of the enmity of the few Catholics that attend? I understand that one of our ministers said from the pulpit that he didn't know but what the board was right—that the Protestant Bible would be offensive to the Catholics in attendance. If the public school system has been organized and brought about by the Catholic people, then the Protestant Bible would be an insult to them, and ought to be replaced by their own. If the board is so greatly opposed to the Bible reading, why do they think it would be proper for Miss Anna Shaw to deliver an address to the girls of the schools? "God bless the public school system." What! Ask God to bless an institution He has been thrown out of, or in which he has no right or part? Is it possible that God's rights are confined to the church alone? We admire the dear teacher's principles, and hope they will stick to the same, and God will stick to them.

#### CITIZEN TAXPAYER

#### AGAIN THWARTED.

Company E Did Not Have a Quorum Last Night.  
Company E met last night for the purpose of choosing a captain, and again were thwarted in the attempt. This time it was owing to a lack of members being present required to constitute a quorum. Lieut. William Johnson addressed the boys, and endeavored to impress upon them the importance of selecting a man for the position of captaincy who is thoroughly competent and well versed in the tactics. Continuing, he urged the members to use extreme caution and not be hasty in their deliberations, lest a woful error

be the result. The names of a few candidates were then suggested, and among those was the name of 'Squire J. N. Rose, who has had experience in military. From the discussion that followed, it was evident that the candidacy of Mr. Rose met with unanimous approval. Should the gentleman accept the position, undoubtedly he will be elected captain. Lieutenant Finley will call a special meeting for Thursday evening to decide the question, and notice will be mailed to all members, notifying them to be present.

#### STEAM PRESSES.

Are Being Made by the Thomas Company.

Thomas' machine shops are at present engaged in the manufacture of a large steam press, with which the saggars that are now pressed by hand will be made. The use of steam presses will be something new in this line, and is only an experiment at present, but if successful will greatly facilitate the manufacture of saggars, the workmen being able to accomplish a great deal more in a day without so much labor. The press is being made on the principle of the steam presses used in the manufacture of sewer pipe and should ultimately prove successful.

#### ON NEXT TUESDAY

The Y. M. C. A. Will Hold an Athletic Contest.

The Young Men's Christian association will hold an athletic contest and concert on next Tuesday evening in the George property on Fifth street. The entertainment will be for the benefit of Charles Skyles, the boy who broke his wrist in the gymnasium yesterday morning. It will consist of a friendly contest among the boys for points, and a fine musical program will be rendered. A small admission fee will be charged, and as the boy will be unable to do any work for six weeks at least, it is to be hoped that there will be a large crowd present.

#### TO TAKE ACTION.

The Street Committee Will Meet This Week.

The street committee will meet some evening this week and take action on the many improvements introduced at the last council meeting by the board of improvements. It is probable that without exception the suggestions offered by the board of improvements will be referred to council for passage by the committee, as it is well known that they are badly needed, and are only recommended by the board after a thorough investigation.

#### NAME NOT GIVEN.

A Person of Social Standing Arrested Last Week.

It has been learned from a source of apparent authority that the police arrested a man well known and high in social standing in the city in company with a disreputable female in a house of shady reputation, last week. The two were heavily fined, and the name of the man is withheld from the press out of respect for his family, who bear an excellent reputation. This person will do well to cease this nefarious conduct, lest a public exposure follow.

#### STARTING TO WORK.

The Force on the New Bridge to be Increased Gradually.

Contractor Wilson started seven men to work yesterday to make preparations for excavation of the bridge piers. A large force will be added in a day or two. The engine and machinery for the hoisting of stone is being unloaded from the cars today, and will be placed in working order immediately. Those who all along have been skeptical are willing to admit now that the building of the bridge is an assured fact.

#### Sure of Re-Election.

John H. Ruhlman, county clerk of Mahoning county, in an interview with the Cleveland World of last Saturday, had the following to say in regard to the election of Congressman R. W. Taylor: "The election of congressman will go to R. W. Taylor, the present incumbent. He has not yet had much chance to distinguish himself, but he has voted right, and I think he is entitled to re-nomination."

#### Paid His Fine.

The man Allen succeeded in securing the money for his fine late yesterday afternoon and was released. Such people as Allen should be given a term in the workhouse, as well as being heavily fined.

#### Propels the Conveyance.

A crippled man unable to walk arrived here this morning on the morning train. He rides around in a small conveyance that he propels with his hands.

### ENDORSED W. L. SMITH

Washington Township Advocates Our Townsman.

#### ALSO BACK UP R. W. TAYLER

A Letter From Salineville Announces the Fact That They Desire W. L. Smith to Go to St. Louis, R. W. Tayler is Also Heartily Commended For Renomination.

SALINEVILLE, Feb. 17.—The Republicans of Washington township met in mass convention Saturday evening to select candidates for congressional delegates. Frank Pumpfrey, chairman of the local committee, presided, and W. R. Dutton was elected secretary. The following delegates and alternates were elected: R. M. Hull, Henry Nixon, T. S. Baker; alternates, M. H. Marietta, A. G. Maple and J. S. Duncan.

W. R. Dutton, C. A. White and Eli Blazev, committee on resolutions, reported the following, which were enthusiastically adopted:

WHEREAS, We believe the Republicans of Columbiana county are entitled to one of the delegates from this district to the National Republican convention, and as they have a candidate for that honor in the person of W. L. Smith, Esq., of East Liverpool, who is known to be a close personal friend of Ohio's candidate, the Honorable William McKinley, and whose party service and long political experience entitle him to that honor, therefore be it

Resolved, That the delegates from this township selected to the district convention be, and are hereby instructed to vote for and use every honorable means to secure the election of W. L. Smith as a national delegate from this congressional district to the National Republican convention to be held at St. Louis in June.

Resolved, That the Republicans of Washington township, now assembled in mass convention, do fully approve and endorse the official acts and public utterances of our congressman, Hon. R. W. Tayler, and that we most heartily endorse him for nomination and instruct our delegates to give him their enthusiastic and undivided support.

#### ACCIDENTS GALORE.

A Chapter of Peculiar Mishaps on the Electric Line.

The patrons of the street car line were subjected to a great deal of inconvenience last night, a variety of accidents occasioning the mischief. A party of young people coming up from Wellsville early in the evening found, upon arriving at a point near the road leading to the campgrounds, that the electric wire was down for the length of several hundred yards. They were obliged to walk the entire distance to get transferred to another car, and when they came up to the car they discovered that it had jumped the track, compelling them to tramp still further. Reaching the switch at Walker's, car number 29 was boarded and the journey resumed. The young people were congratulating themselves that all difficulty was over now; but alas, the fates were against them. The car had proceeded only a short distance when the motor burned out and they were forced to travel the remainder of the distance on foot. Also, in order to vary the monotony of things, the power was shut off several times.

#### Our Officers.

In the line of their duty and in the performance of the same, the police officers should have, and will have, the moral and financial support of all good and law-abiding citizens, irrespective of party or clique. In the case of Officers Earl and Jennings versus Timothy Burns, the officers, as we understand the matter, and from information given us from a reliable source, did nothing but their duty, and they would have been false to their oath had they done otherwise. Timothy Burns defeated the city on account of a defective ordinance; but we opine that Timothy and his backers have tackled the wrong idea, when they enter suit against faithful and efficient roustabouts for doing their sworn duty.

#### Their Anniversary.

Mr. and Mrs. Bentley Pope observed the 25th anniversary of their wedding at their pleasant home in Thompson place last night. A number of friends were present to help them enjoy the occasion, and an evening that will long be remembered by all present was spent.

#### Surprised Him.

The members of the East Liverpool Anglers called on Charles M. Dix in a body last night, at his home

on Fourth street, and proceeded to take possession of the house. It was a complete surprise to Mr. Dix, who did not know at first what to make of it, but the club members explained that last Friday was his birthday and they had intended to call then, but so much was going on that they were compelled to postpone their visit for a few days. An elegant supper was served and an enjoyable time had by all present.

#### To Play Football.

Word has been received by the association football team that the Standards, of Pittsburg, would come to play them in this city on Saturday, Feb. 22. As the boys already have a date booked in Cleveland for that day, they are undecided what to do. Sometime ago the Cleveland team wrote here asking them to cancel, owing to the snow on their ground, but as the snow is now all gone, the team don't know whether they want them to show up or not. A telegram was sent this afternoon to Cleveland asking whether the date was still cancelled. If it is ascertained that they are not expected, they will wire the Standards and play in this city on Saturday.

#### An Indignant Proprietor.

Will Stewart, proprietor of the Grand, is indignant. Last night a local paper devoted about half a column of its space to telling the public how a boarder had skipped out and left the hotel people in the lurch. Will says that there isn't a word of truth in the statement and that he has every confidence in the young man, who was in a somewhat embarrassed state financially, but a satisfactory arrangement was made by him before he took his departure, and no fear is expressed that an attempt was made to defraud them.

#### A Union Meeting.

A meeting of the United Presbyterian missionary societies will be held in the First U. P. church this evening. It is to be a union meeting of the members of the society of Wellsville, East End and this city. The union has been organized for over a year and the meetings already held have been very successful and helpful to each society. An interesting program has been prepared for this evening's meeting. The ladies extend a special invitation to the gentlemen to attend the meeting.

#### For Better Roads.

The Mahoning county farmers are making a move for better roads that could well be imitated by the farmers in this county. A strong sentiment is being manifested by the farmers throughout that county in favor of substantial improvements of the roads so as to make them accessible to traffic at all seasons of the year, and meetings are being called with that purpose in view.

#### Christian Politics.

The above is the title of a neat little pamphlet published by the anti-saloon league. The author is Rev. Howard H. Russell, state superintendent of the anti. It is an appeal that should be in the hands of every lover of total abstinence, and should be placed in the hands of our young people, just budding into manhood and womanhood.

#### Chief Has a Pair of Gloves.

Chief Adam, of the fire department, has a pair of gloves that he borrowed from a young man on the morning that the Rinehart fire took place. The chief would like to return them, but does not know the name of the owner of the borrowed property. If the young man will call on him he can either have the gloves or payment for them.

#### The Convention State.

The following persons will attend the twenty-ninth annual state convention of the Young Men's Christian association, which convenes at Mansfield on Thursday of this week: James Wilson, Will Shenkel, George Pickering, S. T. Herbert, Harry Horwell, Howard Steele, C. H. Morris and W. G. Morris.

#### Can't Get Bids.

The sporting fraternity of the city have been endeavoring to get up a live bird shoot to take place in the sister city on Washington's Birthday, but the project has been abandoned, owing to the inability to get a sufficiency of birds.

#### Twenty Minutes Late.

The 8:10 morning train, eastward bound, was delayed 20 minutes below Wellsville this morning, by a number of long freight trains.

#### Buying Horses.

A number of farmers came to town today to dispose of horses to a dealer who is in the city, buying up all the horse flesh available.

### NO MEETING WAS HELD

By the Board of Education Last Night.

#### SEVERAL TEACHERS PRESENT

Two Members of the Board Were Absent Last Night, and in View of the Important Matters Before Them, the Meeting Was Postponed.

The Board of Education did not meet last night, owing to the absence of several members of the board.

Messrs. Nellis, Owen and Golding and Mrs. Whitehead were present. Colonel Taylor was absent and W. L. Smith is away in New York. Professor Sanor and two school teachers, Miss Florence Jessop and Miss Little, were also present. Mr. Nellis arose and stated that it was a question to him whether the board should meet or not owing to the absence of several members. He said it might be advisable to postpone the meeting until next Monday. If anything of importance came up in the meantime to be acted upon by the board it would be an easy matter to call a special session. Member Golding concurred with Nellis in his remarks and added that as there were matters of deep moment to come before the board it would be best to defer any action on these matters until there was a full attendance present. He also said that this course should be followed out in defense of the absent members. The only bill to be given attention was that from the Johnson Electric company for the remedying of the heating apparatus of the central building, that has been in a defective condition. The system is in good working order now. Superintendent Sanor said that he had a report to make to the Board at some future date, that he wished them to read carefully. Miss Jessop also had a paper that she wished to read and may present it next Monday night, the contents of which she firmly but politely refused to divulge to a pair of reporters, despite the fact of the eloquent and touching plea that they made. After a general handshake all around, interspersed with introductions, all present dispersed to their domiciles.

#### Killed at a Crossing.

Special to the NEWS REVIEW.

BEDFORD, Feb. 18.—Alfred Whitaker, proprietor of the Broom Oil company, and one of the best known Democratic politicians in this state, was struck by a train while driving over a crossing this morning and instantly killed. His son Dana is fatally injured.

#### Social Notes.

The Lotus club will give a private dance at their rooms tonight. The Daughters of St. George will hold a dance and tea party at Bradshaw hall tonight. The St. Aloysius' church aid and literary societies will give an entertainment at the Fifth street rink tonight.

#### A Child Dead.

A child of John Hickey, of Walnut street, died suddenly early this morning. The child was taken sick last night and passed away before a physician arrived. The funeral takes place tomorrow morning. Services will be held in St. Aloysius church and interment in the Catholic cemetery.

#### Congratulations.

We have it from reliable information that our young townsman, George L. Davidson, went to Steubenville yesterday, where he was united in marriage to a fair maiden of that city. The NEWS REVIEW, together with a host of friends, wish him much happiness.

#### Cold Weather.

The cold weather seems to have no effect whatever on the candidates, as they still continue to hustle with as much vigor as ever. It is said that enough cards have been left in this city alone to supply every man, woman and child in Columbiana county.

#### Mashed His Finger.

Will Carey, while placing a kiln at McNicol's pottery yesterday, accidentally dropped a saggur, mashing his finger severely. The accident will necessitate his absence from work for a few days.

#### Working Day and Night.

The decorating shops at the Standard pottery are overrun with orders. Yesterday a new printing press was added to the establishment.

#### Dismissed.

Several of the schools were dismissed this morning on account of the extreme cold weather.

A party of young people coming up from Wellsville early in the evening found, upon arriving at a point near the road leading to the campgrounds, that the electric wire was down for the length of several hundred yards. They were obliged to walk the entire distance to get transferred to another car, and when they came up to the car they discovered that it had jumped the track, compelling them to tramp still further. Reaching the switch at Walker's, car number 29 was boarded and the journey resumed. The young people were congratulating themselves that all difficulty was over now; but alas, the fates were against them. The car had proceeded only a short distance when the motor burned out and they were forced to travel the remainder of the distance on foot. Also, in order to vary the monotony of things, the power was shut off several times.

#### Our Officers.

In the line of their duty and in the performance of the same, the police officers should have, and will have, the moral and financial support of all good and law-abiding citizens, irrespective of party or clique. In the case of Officers Earl and Jennings versus Timothy Burns, the officers, as we understand the matter, and from information given us from a reliable source, did nothing but their duty, and they would have been false to their oath had they done otherwise. Timothy Burns defeated the city on account of a defective ordinance; but we opine that Timothy and his backers have tackled the wrong idea, when they enter suit against faithful and efficient roundsmen for doing their sworn duty.

#### Their Anniversary.

Mr. and Mrs. Bentley Pope observed the 25th anniversary of their wedding at their pleasant home in Thompson place last night. A number of friends were present to help them enjoy the occasion, and an evening that will long be remembered by all present was spent.

#### Surprised Him.

The members of the East Liverpool Anglers called on Charles M. Dix in a body last night, at his home

on Fourth street, and proceeded to take possession of the house. It was a complete surprise to Mr. Dix, who did not know at first what to make of it, but the club members explained that last Friday was his birthday and they had intended to call then, but so much was going on that they were compelled to postpone their visit for a few days. An elegant supper was served and an enjoyable time had by all present.

#### To Play Football.

Word has been received by the association football team that the Standards, of Pittsburg, would come to play them in this city on Saturday, Feb. 22. As the boys already have a date booked in Cleveland for that day, they are undecided what to do. Sometime ago the Cleveland team wrote here asking them to cancel, owing to the snow on their ground, but as the snow is now all gone, the team don't know whether they want them to show up or not. A telegram was sent this afternoon to Cleveland asking whether the date was still cancelled. If it is ascertained that they are not expected, they will wire the Standards and play in this city on Saturday.

#### An Indignant Proprietor.

Will Stewart, proprietor of the Grand, is indignant. Last night a local paper devoted about half a column of its space to telling the public how a boarder had skipped out and left the hotel people in the lurch. Will says that there isn't a word of truth in the statement and that he has every confidence in the young man, who was in a somewhat embarrassed state financially, but a satisfactory arrangement was made by him before he took his departure, and no fear is expressed that an attempt was made to defraud them.

#### A Union Meeting.

A meeting of the United Presbyterian missionary societies will be held in the First U. P. church this evening. It is to be a union meeting of the members of the society of Wellsville, East End and this city. The union has been organized for over a year and the meetings already held have been very successful and helpful to each society. An interesting program has been prepared for this evening's meeting. The ladies extend a special invitation to the gentlemen to attend the meeting.

#### For Better Roads.

The Mahoning county farmers are making a move for better roads that could well be imitated by the farmers in this county. A strong sentiment is being manifested by the farmers throughout that county in favor of substantial improvements of the roads so as to make them accessible to traffic at all seasons of the year, and meetings are being called with that purpose in view.

#### Christian Politics.

The above is the title of a neat little pamphlet published by the anti-saloon league. The author is Rev. Howard H. Russell, state superintendent of the anti-s. It is an appeal that should be in the hands of every lover of total abstinence, and should be placed in the hands of our young people, just budding into manhood and womanhood.

#### Chief Has a Pair of Gloves.

Chief Adam, of the fire department, has a pair of gloves that he borrowed from a young man on the morning that the Rinehart fire took place. The chief would like to return them, but does not know the name of the owner of the borrowed property. If the young man will call on him he can either have the gloves or payment for them.

#### The Convention State.

The following persons will attend the twenty-ninth annual state convention of the Young Men's Christian association, which convenes at Mansfield on Thursday of this week: James Wilson, Will Shenkel, George Pickering, S. T. Herbert, Harry Horwell, Howard Steele, C. H. Morris and W. G. Morris.

#### Can't Get Bids.

The sporting fraternity of the city have been endeavoring to get up a live bird shoot to take place in the sister city on Washington's Birthday, but the project has been abandoned, owing to the inability to get a sufficiency of birds.

#### Twenty Minutes Late.

The 8:10 morning train, eastward bound, was delayed 20 minutes below Wellsville this morning, by a number of long freight trains.

#### Buying Horses.

A number of farmers came to town today to dispose of horses to a dealer who is in the city, buying up all the horse flesh available.

### NO MEETING WAS HELD

By the Board of Education Last Night.

#### SEVERAL TEACHERS PRESENT

Two Members of the Board Were Absent Last Night, and in View of the Important Matters Before Them, the Meeting Was Postponed.

The Board of Education did not meet last night, owing to the absence of several members of the board.

Messrs. Nellis, Owen and Golding and Mrs. Whitehead were present. Colonel Taylor was absent and W. L. Smith is away in New York. Professor Sanor and two school teachers, Miss Florence Jessop and Miss Little, were also present. Mr. Nellis arose and stated that it was a question to him whether the board should meet or not owing to the absence of several members. He said it might be advisable to postpone the meeting until next Monday. If anything of importance come up in the meantime to be acted upon by the board it would be an easy matter to call a special session. Member Golding coincided with Nellis in his remarks and added that as there were matters of deep moment to come before the board it would be best to defer any action on these matters until there was a full attendance present. He also said that this course should be followed out in defense of the absent members. The only bill to be given attention was that from the Johnson Electric company for the remedying of the heating apparatus of the central building, that has been in a defective condition. The system is in good working order now. Superintendent Sanor said that he had a report to make to the Board at some future date, that he wished them to read carefully. Miss Jessop also had a paper that she wished to read and may present it next Monday night, the contents of which she firmly but politely refused to divulge to a pair of reporters, despite the fact of the eloquent and touching plea that they made. After a general handshake all around, interspersed with introductions, all present dispersed to their domiciles.

#### Killed at a Crossing.

Special to the NEWS REVIEW.  
BEDFORD, Feb. 18.—Alfred Whitaker, proprietor of the Broom Oil company, and one of the best known Democratic politicians in this state, was struck by a train while driving over a crossing this morning and instantly killed. His son Dana is fatally injured.

#### Social Notes.

The Lotus club will give a private dance at their rooms tonight.  
The Daughters of St. George will hold a dance and tea party at Bradshaw hall tonight.  
The St. Aloysius' church aid and literary societies will give an entertainment at the Fifth street rink tonight.

#### A Child Dead.

A child of John Hickey, of Walnut street, died suddenly early this morning. The child was taken sick last night and passed away before a physician arrived. The funeral takes place tomorrow morning. Services will be held in St. Aloysius church and interment in the Catholic cemetery.

#### Congratulations.

We have it from reliable information that our young townsman, George L. Davidson, went to Steubenville yesterday, where he was united in marriage to a fair maiden of that city. The NEWS REVIEW, together with a host of friends, wish him much happiness.

#### Cold Weather.

The cold weather seems to have no effect whatever on the candidates, as they still continue to hustle with as much vigor as ever. It is said that enough cards have been left in this city alone to supply every man, woman and child in Columbiana county.

#### Mashed His Finger.

Will Carey, while placing a kiln at McNicol's pottery yesterday, accidentally dropped a sagger, mashing his finger severely. The accident will necessitate his absence from work for a few days.

#### Working Day and Night.

The decorating shops at the Standard pottery are overrun with orders. Yesterday a new printing press was added to the establishment.

#### Dismissed.

Several of the schools were dismissed this morning on account of the extreme cold weather.

### AGNOSTICS.

"Are agnostics the proper persons  
to have at the head of educational es-  
tablishments—more particularly our  
public schools?" This comes as the  
query of a conservative and good citi-  
zen. Will he please be more explicit?  
Will he not plainly name the in-  
dividual or individuals to whom he  
refers? An agnostic should not be at  
the head of any public school in all  
this fair land. Christian men and  
women should be teachers in our  
public schools, in order that we may  
have a God-fearing, God-loving nation,  
and then we may expect to have God's  
blessing, and our beloved land will  
bloom and blossom like the rose.  
Every board of education in the land  
should be composed of good and true  
men and women—those who have been  
educated in Christian homes; those  
who believe that the Bible is the book  
of books—the inspired word of God; a  
book, within itself, the educator of  
educators. What's the matter with  
the Bible? No, conservative citizen,  
we have no use for agnostics as public  
educators, and if you will kindly  
point them out, we will do our level  
best to bar them from such positions  
in East Liverpool, and can assure you  
that we will have a host of eager co-  
workers.

### LAW AND ORDER.

Marshal John Wyman has the  
thanks of all good citizens for his ac-  
tion in arresting and bringing before  
Mayor Gilbert the infamous proprietor of  
the Exchange Hotel, Second street,  
and Mayor Gilbert deserves warm  
commendation for his hot denuncia-  
tion and heavy fine of the unprin-  
ciple landlord, R. B. Allen. The city  
is that Allen was not sent to the work-  
house for an indefinite period, as we  
have no earthly use for such charac-  
ters in East Liverpool. It goes with-  
out saying that this den of iniquity  
will receive needed attention from  
our police officers in the future. And  
the other parties who were arrested  
in this den, house of ill-fame or as-  
signation headquarters. Of course  
their true names were not given.  
If their bonafide names are known to  
the authorities, then it is a  
shame that they were not placed on  
the docket and given to the daily  
papers. By the way, Messrs. Gilbert  
and Wyman, there are other vil-  
lains in existence in East Liver-  
pool, and you will have the warm  
thanks of all decent and law-abid-  
ing citizens if you will  
do your utmost to break them up.  
The News Review sounded a note  
of warning, not long since, to some  
old scoundrels in this city—white-  
sepulchers; men who desire to pose  
as good citizens and aim to keep in  
decent society, and yet are living a  
life of almost open shame, and doing  
their best to drag down youth, male  
and female, with them. Positive  
information convinces the writer that  
these sensualists were badly scared  
and have been more cautious of late;  
but they have not abandoned their  
unholy practices by any manner of  
means, and they may yet furnish  
sensational developments for the public.

# CREMATED OR CRUSHED

20 Girls Perish In a Factory  
Fire at Troy, N. Y.

## WILD PANIC AMONG 350 FEMALES.

A Number Jumped From the Windows  
and Fire Escape and Were Either  
Killed or Injured—Others Cremated in  
the Building—Several Escaped.

Troy, N. Y., Feb. 18.—A small boy  
carelessly throwing a match into a pile  
of oily waste was the beginning of a  
fire in this city that consumed thousands  
of dollars worth of property and caused  
the destruction of many lives.

It was just 30 minutes before closing  
hours in Stethim's & Co.'s shirt  
waist factory on River street, and 350  
girls and women were working rapidly  
to finish up. In the cutting room on  
the fifth floor the 150 girls were closing  
up their day's assignments and pre-  
paring to leave when the whistle blew.  
Lillie Kreiger, who was working near  
a machine, called to a small boy to light  
the gas over her work. The boy struck  
a match and threw the burning stub to  
the floor. It struck a pile of oily rags,  
and in an instant the girl was enveloped  
in flames. With her clothes and hair  
burning she rushed to the window, and  
in an instant the room became a  
struggling, shrieking mass of humanity,  
filling the windows, the fire escapes and  
the only stairway. Jamming and push-  
ing, tearing each other's clothes from  
their backs, turning in narrow corridors  
to find a sister or mother or friend, the  
number in the exits augmented every  
minute by those from other floors, these  
girls and women fought for their lives  
to get away from the fiery flames that  
seemed to grow to monstrous size. With  
rare presence of mind, Policeman Far-  
rell, who was on the street, seeing that  
in the panic a number were liable to  
jump, let down the awning over the  
entrance. Barely was it down when two  
or three forms came flying down from  
the fifth and sixth stories, and bounding  
from the awning fell to the sidewalk.

Nearly every window had a female  
form dangling from it, and when the  
firemen arrived there was a hustle to  
get the ladders up. Many of these un-  
fortunates hung on until the flames,  
licking their hands and faces, made  
them drop to the pavement below, where  
they were horribly mangled and killed.  
The firemen and police worked like  
heroes, and to their energy was due a  
great saving of life. At least a dozen  
women and girls were carried down the  
ladders or dragged out of the corridors,  
the officers and firemen going into the  
midst of the smoke and flames.

The fire burned so fiercely by this  
time that no detailed search of the  
building could be made, and from what  
can be learned there were many girls  
and women on the three upper stories,  
either lying in fainting fits or overcome  
by smoke. It was this fact that led  
to the rumors that there were at least  
20 women dead, and the story, even at  
this writing, does not seem improbable.  
The flames eat down through three  
floors so quickly that the Western Union  
Telegraph company, Jessup & Goopier  
Crockery company and Van Zandt and  
Jacobs Collar company had no time to  
save anything.

One house, after the fire started,  
caught from the falling of a portion of  
the roof, and from it small buildings on  
the south caught. The firemen heard  
shrieks coming from the two-story  
building on the south; they discovered  
an Italian peddler named Joseph Rossi,  
who kept a stand in front of the build-  
ing, pinioned by the legs under a heavy  
beam. Three policemen started to as-  
sist him, and with a fireman, worked  
for three-quarters of an hour. They had  
just about gotten him loose when with a  
roar the great south walls came crash-  
ing down, and the horrified spectators  
saw the brave little group buried from  
view. When the smoke and dust had  
cleared there was a rush of willing  
workers, and in a little while the men  
were taking out. All were injured and  
had to be removed to the hospital. The  
Italian will probably die, but the brave  
policemen, while badly hurt, will re-  
cover.

Superintendent Willard of the police  
force says that he saw a number of girls  
at windows who never came out, but  
fell back into the flames. One fireman  
who was working from the rear saw  
three girls with their arms wound  
tightly about each other, turn in their  
frenzy and jump back into the flames.  
Some of the women who escape tell of  
stumbling over prostrate bodies, and are  
positive that a score of girls perished.  
Lottie and Nellie Hall, sisters, grasped  
each other tightly by the hands, and  
started down the stairs from the sixth  
story. At the landing of the fifth floor  
they encountered a wall of flame and  
smoke. Nellie had on only her corsets

toilet. Lottie, who was also partially  
dressed, threw her dress over Nellie's  
face and together they went through  
the flames. Lottie's hair was burned  
completely off when they reached the  
sidewalk, but Nellie was burned only  
about her bare arms.

The total loss by the fire is from \$250,-  
000 to \$300,000, with about \$100,000 in-  
surance. At least 500 people are thrown  
out of employment. The firemen  
worked with the thermometer down be-  
low zero and suffered very much.

The following is a list of the dead, as  
far as obtainable: Mrs. Margaret Car-

jumped from window, and Mrs. Robert  
Kane, jumped from window.

The injured are: Mamie Day, jumped  
and badly hurt; Annette Harrington,  
badly burned; Lillian Gathout, burned;  
Mamie Rourke, burned; Lillian Kreiger,  
burned and badly bruised; James Quinn,  
under wall, will die; Mrs. Johnson,  
badly burned, will die; Frank Rossi,  
Italian, bruised by falling wall; Police-  
man Burke, bruised by falling wall; Po-  
liceman Watson, bruised by falling wall;  
Fireman McGuirk, bruised by falling  
wall; Lottie Hall, severely burned;  
Nellie Hall, badly bruised.

Missing and probably dead: Mamie  
Danks, Kati O'Connor, Miss O'Neill  
and Miss Herberscher.

### MIGHT MEAN A LYNCHING.

A Suspicious Advertisement in Cincin-  
nati For 1,000 Able-bodied Men.

CINCINNATI, Feb. 18.—Walling and  
Jackson, the accused murderers of Pearl  
Bryan, had a hearing in the police court  
on the charge of being fugitives from  
justice this morning. In view of that  
fact the following advertisement, which  
appeared in a morning paper without  
signature, regarded with suspicion to  
say the least. Here it is:  
"Wanted—Men, able-bodied, 1,000  
at Court and Sycamore streets, at 8:30  
o'clock Tuesday morning. Come ready  
for work."

The entrance to the jail is at the cor-  
ner of Court and Sycamore streets. The  
natural inference is that this was an in-  
citements to riot, inserted in the paper  
by some unknown fomenters of mischief.  
Whatever may be the personal feelings  
of the police toward the prisoners, they  
can be depended on to keep their oath  
to uphold law; the same may be said of  
the local military.

George H. Jackson, the revealer of  
the facts of that midnight drive to the  
scene of the tragedy, bears a spotless  
name wherever he has lived for from  
one to four years. In Springfield, O.,  
where he lived only a few months his  
reputation with the police is bad. If he  
is wanted for embezzlement, as is al-  
leged there, he can be had speedily.  
His testimony was the means of send-  
ing a colored minister to the peniten-  
tiary from Walnut Hills a short time  
ago. This has made him some enemies,  
especially beyond the confines of Cin-  
cinnati.

It is learned that Pearl Bryan was kept  
at the Lorman hotel in Newport on the  
night previous to her murder. After  
finding the driver and the surrey used  
by Jackson and Walling in taking their  
victim from Cincinnati to the Ken-  
tucky highlands for decapitation, the  
officers are working in Newport. They  
have now a complete chain of evidence  
against Jackson and Walling, from the  
time Pearl Bryan came here from  
Green Castle, Ind., Monday, Jan. 27,  
till Friday night, Jan. 31, when she was  
murdered in a secluded spot between  
Fort Thomas and Newport, Ky.

Governor Bushnell is hearing the re-  
quisition case today at Columbus. There  
is no doubt of the transfer of the two

dictment and will have a speedy trial.

tains a table prepared by a committee of

### Fared Better Than Enoch Arden.

BROOKLYN, Feb. 18.—Elias Simms re-

dead, married another man and was  
the mother of a 3-year-old daughter.  
Husband No. 2 had since died though.  
She agreed to take him back to her heart

arship of the value of \$7,000 to Wellesley

### AGNOSTICS.

"Are agnostics the proper persons  
to have at the head of educational es-  
tablishments—more particularly our  
public schools?" This comes as the  
query of a conservative and good citi-  
zen. Will he please be more explicit?  
Will he not plainly name the indi-  
vidual or individuals to whom he  
refers? An agnostic should not be at  
the head of any public school in all  
this fair land. Christian men and  
women should be teachers in our  
public schools, in order that we may  
have a God-fearing, God-loving nation,  
and then we may expect to have God's  
blessing, and our beloved land will  
bloom and blossom like the rose.  
Every board of education in the land  
should be composed of good and true  
men and women—those who have been  
educated in Christian homes; those  
who believe that the Bible is the book  
of books—the inspired word of God; a  
book, within itself, the educator of  
educators. What's the matter with  
the Bible? No, conservative citizen,  
we have no use for agnostics as public  
educators, and if you will kindly  
point them out, we will do our level  
best to bar them from such positions  
in East Liverpool, and can assure you  
that we will have a host of eager co-  
workers.

### LAW AND ORDER.

Marshal John Wyman has the  
thanks of all good citizens for his ac-  
tion in arresting and bringing before  
Mayor Gilbert the infamous proprietor  
of the Exchange Hotel, Second street,  
and Mayor Gilbert deserves warm  
commendation for his hot denuncia-  
tion and heavy fine of the unprin-  
ciple landlord, R. B. Allen. The pity  
is that Allen was not sent to the work-  
house for an indefinite period, as we  
have no earthly use for such charac-  
ters in East Liverpool. It goes with-  
out saying that this den of iniquity  
will receive needed attention from  
our police officers in the future. And  
the other parties who were arrested  
in this den, house of ill-fame or as-  
signation headquarters. Of course  
their true names were not given.  
If their bonafide names are known  
to the authorities, then it is a  
shame that they were not placed on  
the docket and given to the daily  
papers. By the way, Messrs. Gilbert  
and Wyman, there are other vile  
dens in existence in East Liver-  
pool, and you will have the warm  
thanks of all decent and law-abid-  
ing citizens if you will do your utmost  
to break them up. The News Review  
sounded a note of warning, not long since, to some  
old scoundrels in this city—whited  
sepulchers; men who desire to pose  
as good citizens and aim to keep in  
decent society, and yet are living a  
life of almost open shame, and doing  
their best to drag down youth, male  
and female, with them. Positive  
information convinces the writer that  
these sensualists were badly scared  
and have been more cautious of late;  
but they have not abandoned their  
unholy practices by any manner of  
means, and they may yet furnish  
sensational developments for the  
public.

## CREMATED OR CRUSHED

20 Girls Perish In a Factory  
Fire at Troy, N. Y.

WILD PANIC AMONG 350 FEMALES.

A Number Jumped From the Windows  
and Fire Escape and Were Either  
Killed or Injured—Others Cremated in  
the Building—Several Escaped.

Troy, N. Y., Feb. 18.—A small boy  
carelessly throwing a match into a pile  
of oily waste was the beginning of a  
fire in this city that consumed thousands  
of dollars worth of property and caused  
the destruction of many lives.

It was just 30 minutes before closing  
hours in Steinhilbers & Co.'s shirt  
waist factory on River street, and 350  
girls and women were working rapidly  
to finish up. In the cutting room on  
the fifth floor the 150 girls were closing  
up their day's assignments and pre-  
paring to leave when the whistle blew.  
Lillie Kreiger, who was working near  
a machine, called to a small boy to light  
the gas over her work. The boy struck  
a match and threw the burning stub to  
the floor. It struck a pile of oily rags,  
and in an instant the girl was enveloped  
in flames. With her clothes and hair  
burning she rushed to the window, and  
in an instant the room became a  
struggling, shrieking mass of humanity,  
filling the windows, the fire escapes and  
the only stairway. Jamming and push-  
ing, tearing each other's clothes from  
their backs, turning in narrow corridors  
to find a sister or mother or friend,  
the number in the exits augmented every  
minute by those from other floors, these  
girls and women fought for their lives  
to get away from the fiery flames that  
seemed to grow to monstrous size. With  
rare presence of mind, Policeman Far-  
rell, who was on the street, seeing that  
in the panic a number were liable to  
jump, let down the awning over the  
entrance. Barely was it down when two  
or three forms came flying down from  
the fifth and sixth stories, and bounding  
from the awning fell to the sidewalk.

Nearly every window had a female  
form dangling from it, and when the  
firemen arrived there was a hustle to  
get the ladders up. Many of these un-  
fortunates hung on until the flames,  
licking their hands and faces, made  
them drop to the pavement below, where  
they were horribly mangled and killed.

The firemen and police worked like  
heroes, and to their energy was due a  
great saving of life. At least a dozen  
women and girls were carried down the  
ladders or dragged out of the corridors,  
the officers and firemen going into the  
midst of the smoke and flames.

The fire burned so fiercely by this  
time that no detailed search of the  
building could be made, and from what  
can be learned there were many girls  
and women on the three upper stories,  
either lying in fainting fits or also over-  
come by smoke. It was this fact that  
led to the rumors that there were at least  
20 women dead, and the story, even at  
this writing, does not seem improbable.

The flames eat down through three  
floors so quickly that the Western Union  
Telegraph company, Jessup & Goopner  
Crockery company and Van Zandt and  
Jacobs Collar company had no time to  
save anything.  
One house, after the fire started,  
caught from the falling of a portion of  
the roof, and from it small buildings on  
the south caught. The firemen heard  
shrieks coming from the two-story  
building on the south; they discovered  
an Italian peddler named Joseph Rossi,  
who kept a stand in front of the build-  
ing, pinioned by the legs under a heavy  
beam. Three policemen started to as-  
sist him, and, with a fireman, worked  
for three-quarters of an hour. They had  
just about gotten him loose when with a  
roar the great south walls came crash-  
ing down, and the horrified spectators  
saw the brave little group buried from  
view. When the smoke and dust had  
cleared there was a rush of willing  
workers, and in a little while the men  
were taken out. All were injured and  
had to be removed to the hospital. The  
Italian will probably die, but the brave  
policemen, while badly hurt, will re-  
cover.

Superintendent Willard of the police  
force says that he saw a number of girls  
at windows who never came out, but  
fell back into the flames. One fireman  
was working from the rear saw three  
girls with their arms wound  
tightly about each other, turn in their  
fray and jump back into the flames.  
Some of the women who escape tell of  
stumbling over prostrate bodies, and are  
positive that a score of girls perished.  
Lottie and Nellie Hull, sisters, grasped  
each other tightly by the hands, and  
started down the stairs from the sixth  
story. At the landing of the fifth floor  
they encountered a wall of flame and  
smoke. Nellie had on only her corsets

toilet. Lottie, who was also partially  
dressed, threw her dress over Nellie's  
face and together they went through  
the flames. Lottie's hair was burned  
completely off when they reached the  
sidewalk, but Nellie was burned only  
about her bare arms.

The total loss by the fire is from \$250,-  
000 to \$300,000, with about \$100,000 in-  
surance. At least 500 people are thrown  
out of employment. The firemen  
worked with the thermometer down be-  
low zero and suffered very much.

The following is a list of the dead, as  
far as obtainable: Mrs. Margaret Car-

jumped from window, and Mrs. Robert  
Kane, jumped from window.

The injured are: Mamie Day, jumped  
and badly hurt; Annette Harrington,  
badly burned; Lillian Gathout, burned;  
Mamie Rourke, burned; Lillian Kreiger,  
burned and badly bruised; James Quinn,  
under wall, will die; Mrs. Johnson,  
badly burned, will die; Frank Rossi,  
Italian, bruised by falling wall; Police-  
man Burke, bruised by falling wall; Po-

Fireman McGuirk, bruised by falling  
wall; Lottie Hull, severely burned;  
Nellie Hull, badly burned.

and Miss Herberscher.

### MIGHT MEAN A LYNCHING.

A Suspicious Advertisement in Cin-  
cinnati For 1,000 Able-bodied Men.

CINCINNATI, Feb. 18.—Walling and  
Jackson, the accused murderers of Pearl  
Bryan, had a hearing in the police court  
on the charge of being fugitives from  
justice this morning. In view of that  
fact the following advertisement, which  
appeared in a morning paper without  
signature, regarded with suspicion to  
say the least. Here it is:  
"Wanted—Men, able-bodied, 1,000  
at Court and Sycamore streets, at 8:30  
o'clock Tuesday morning. Come ready  
for work."

The entrance to the jail is at the cor-  
ner of Court and Sycamore streets. The  
natural inference is that this was an in-  
citemment to riot, inserted in the paper  
by some unknown fomentor of mischief.  
Whatever may be the personal feelings  
of the police toward the prisoners, they  
can be depended on to keep their oath  
to uphold law; the same may be said of  
the local military.

George H. Jackson, the reveler of  
the facts of that midnight drive to the  
scene of the tragedy, bears a spotless  
name wherever he has lived for from  
one to four years. In Springfield, O.,  
where he lived only a few months his  
reputation with the police is bad. If he  
is wanted for embezzlement, as is al-  
leged there, he can be had speedily.  
His testimony was the means of send-  
ing a colored minister to the peniten-  
tiary from Walnut Hills a short time  
ago. This has made him some enemies,  
especially beyond the confines of Cin-  
cinnati.

It is learned that Pearl Bryan was kept  
at the Herman hotel in Newport on the  
night previous to her murder. After  
finding the driver and the surrey used  
by Jackson and Walling in taking their  
victim from Cincinnati to the Ken-  
tucky highlands for decapitation, the  
officers are working in Newport. They  
have now a complete chain of evidence  
against Jackson and Walling, from the  
time Pearl Bryan came here from  
Green Castle, Ind., Monday, Jan. 27,  
till Friday night, Jan. 31, when she was  
murdered in a secluded spot between  
Fort Thomas and Newport, Ky.

Governor Bushnell is hearing the re-  
quisition case today at Columbus. There  
is no doubt of the transfer of the two  
suspects to Sheriff Plummer of Camp-  
bell county, Ky., who will hold them in  
the Newport jail. They are under in-  
dictment and will have a speedy trial.

25,000 Known to Be Massacred.

LONDON, Feb. 18.—Another blue book  
on Armenia has been published, the dis-

patches covering the period between  
Sept. 3, 1896, and Feb. 11, 1896. It con-  
tains a table prepared by a committee of  
delegates from the embassies of the six  
powers, showing that the total number  
of persons massacred concerning whose  
fate accurate information has been ob-  
tained is 25,000.

### Fared Better Than Enoch Arden.

BROOKLYN, Feb. 18.—Elias Simms re-  
turned to Fort Hamilton a few days  
ago, after an absence of seven years,  
and startled his father-in-law by asking  
for his wife. She had given him up as  
dead, married another man and was  
the mother of a 3-year-old daughter.  
Husband No. 2 had since died though  
She agreed to take him back to her heart  
and home, and all are happy.

### Miss Helen Gould Presents \$7,000.

NEW YORK, Feb. 18.—Miss Effie Ban-  
tin, the secretary of a meeting of the  
Wellesley club, announced that Miss  
Helen Gould, the eldest daughter of the  
late Jay Gould, has presented a schol-  
arship of the value of \$7,000 to Wellesley  
college in memory of her mother, Mrs.  
Helen Miller Gould.

### No Amnesty to Irish Prisoners.

mons. Mr. Timothy Harrington, Par-  
liamentary member for Dublin Harbor,  
moved an amendment to the effect that  
amnesty be granted to the Irish political  
prisoners.

### Sexton Positively Refuses.

LONDON, Feb. 18.—In response to the  
letter addressed to him by Timothy  
Healy Thomas Sexton has finally re-  
fused to accept the leadership of the  
Irish party, notwithstanding Mr. Healy's  
earnest appeal to do so and his promise  
of the hearty support of the Healyites.

### Hon. Joseph Manley's Wife Dead.

AUGUSTA, Me., Feb. 18.—Mrs. Susan  
Manley, wife of Hon. Joseph Manley  
of this city, has died of pneumonia.  
Mr. Manley has been ill for two weeks  
and on Friday her sickness took a seri-  
ous turn, developing into pneumonia.

## A JOINT COMMISSION.

One Favored in Both England and America.

### TO SETTLE WITH VENEZUELA.

Plan Suggested by London Times Considered Favorably in Washington, Writes That Paper's Correspondent. Negotiations In Progress.

LONDON, Feb. 18.—A Washington dispatch to the Times, commenting upon that newspaper's suggestion that Great Britain should appoint a commission of its own to examine into and report upon the Guiana boundary, which was cabled to the United States by the Associated Press, asserts that the Washington government would propose a plan, if there were reason to believe that it would be accepted by England, to create a new commission of two Englishmen and two Americans, not to fix the boundary, but to ascertain the facts and report to their governments. If they should fail to agree, a fifth member could be appointed by the president of the Swiss republic or some other acceptable personage, the findings of the commission to be binding and to serve as a basis for subsequent direct negotiation to fix the boundary.

"Should the negotiation fail," the Times correspondent continues, "the question could be remitted to a tribunal composed, say, of the chief justice of England and the United States, with, if necessary, a third neutral member."

"That plan, I repeat, in its present textual form would be accepted by this government. There would be a disposition, moreover, to agree in advance upon some satisfactory definition of the settled districts and to some definite rule to determine such questions and with reference to all the part of the subject to take a liberal view. There would be no objection to the idea of compensation or some equitable arrangement to avoid the disturbance of actual settlers."

An editorial in the Times dwells on the importance of the foregoing and says: "The plan, in many of its features, is such as England can honorably accept, and offers excellent prospects of an ultimate agreement. Lord Salisbury has already hinted at something of the kind, and it may be assumed that on the main question of procedure the two governments have agreed. Happily, parliament has given the ministers a free hand."

As a matter of fact delicate negotiations on the Venezuelan dispute are now in progress.

In the house of commons, Mr. Balfour asked that the agitation regarding the Venezuela dispute cease, until the government had an opportunity to complete its negotiations.

### EXPECTS TO SWEEP THINGS.

Taubeneck Predicts a Great Silver Convention and Greater Victory.

ST. LOUIS, Feb. 18.—S. E. Taubeneck, chairman of the national committee of the People's party, who has established national headquarters here at the Lindell house, says that the Populist convention next July will be composed of 130 delegates and the convention of the Bi-Metallic league 2,500 delegates, so that when these two bodies combine in one convention the biggest strictly political assemblage ever gathered in this country will be the result.

In an interview, Chairman Taubeneck said: "We will declare for the free and unlimited coinage of gold and silver at the ratio of 16 to 1, and rely confidently on the growth of that sentiment under the impetus imparted by the offense of the two old parties to strangle it, to carry us through and give us complete control of the federal government."

The Money Taken From the Sub-Treasury to Buy Bonds.

WASHINGTON, Feb. 18.—Heavy withdrawals of gold from the sub-treasury at New York for use in future payments for bonds under the recent issue continue to be reported almost daily, and so far as can be learned there is no prospect of even a temporary cessation until the last installment shall have been paid.

The withdrawal yesterday aggregated \$1,424,000 in coin and \$31,600 in bars, which leaves the true amount of the gold reserve \$26,303,499. The gold deposits on bond account so far as officially reported up to the close of business were \$71,430,649.

## U. S. COURTS ATTACKED.

A West Virginia Lawyer Makes Some Sensational Charges.

WHEELING, Feb. 18.—A paper attacking the methods of the Federal courts in West Virginia, read by B. M. Ambler before the recent meeting of the State Bar association, has just been published. Mr. Ambler points out that, although West Virginia has only one-eighth of the population of the country, yet on the dockets of the United States court there are one-eighth of the total criminal cases in the entire country.

Mr. Ambler intimates that the courts are being used as mills to grind out fees. In proof of this he gives official figures to show that in 1895 out of 925 prosecutions in West Virginia there were but 391 convictions. The remaining 534 cases resulted in acquittals or were nolle. About the same proportion holds good for 1894 and 1893.

Among other things Mr. Ambler says: "So terrible are the delays and expenses of litigants that the well-to-do can hardly stand it, and the poor are rarely heard there as parties, except when the government is accusing of crime. Is there not some ground for the thought in their minds that the court is a mill for grinding fees for its attorneys? That the government has framed out her process for fleecing the friendless?"

Another charge made by Mr. Ambler is found in the following passage: "In certain cases a jury trial is made to appear when the prisoner pleads guilty. By some mysterious contrivance, a prisoner puts in a plea of 'not guilty,' and a jury is impaneled to try the issue—the prisoner immediately pleads guilty, and the foreman is directed to write a verdict accordingly. The record then, of course, shows a trial upon hearing of evidence and a conviction. This makes a record upon which more fees can be taken from the government than if a plea of guilty had been accepted in the first place."

### TERRELL'S DETERMINED ACTION.

He Gets a Missionary Released and Will Try Him Himself.

WASHINGTON, Feb. 18.—The state department has received a report by cable from United States Minister Terrell at Constantinople in reference to the case of the American missionary Knapp, who was arrested at Bitlis by the Turkish authorities on a charge of inciting rebellion on the evidence of certain Armenians who are now in prison. Mr. Terrell cables Secretary Olney that he has secured a suspension of the proceedings against the missionary and a safe conduct for him whenever the mountains can be crossed to Constantinople, where the minister himself will examine into the case.

When news of Knapp's arrest came to Mr. Terrell, he demanded that he be either released or that he (Terrell) be permitted to try him, and this cablegram indicates that he has succeeded in his purpose of removing the case from the Turkish officials.

## A JOINT COMMISSION.

One Favored in Both England and America.

### TO SETTLE WITH VENEZUELA.

Plan suggested by London Times considered favorably in Washington. Writes That Paper's Correspondent. Negotiations in Progress.

LONDON, Feb. 18.—A Washington dispatch to the Times, commenting upon that newspaper's suggestion that Great Britain should appoint a commission of its own to examine into and report upon the Guiana boundary, which was cabled to the United States by the Associated Press, asserts that the Washington government would propose a plan, if there were reason to believe that it would be accepted by England, to create a new commission of two Englishmen and two Americans, not to fix the boundary, but to ascertain the facts and report to their governments. If they should fail to agree, a fifth member could be appointed by the president of the Swiss republic or some other acceptable personage, the findings of the commission to be binding and to serve as a basis for subsequent direct negotiation to fix the boundary.

"Should the negotiation fail," the Times correspondent continues, "the question could be remitted to a tribunal composed, say, of the chief justice of England and the United States, with, if necessary, a third neutral member."

"That plan, I repeat, in its present textual form would be accepted by this government. There would be a disposition to agree in advance to some satisfactory definition of the disputed districts and to some definite rule to determine such questions and with reference to all the part of the subject to take a liberal view. There would be no objection to the idea of compensation or some equitable arrangement to avoid the disturbance of actual settlers."

An editorial in the Times dwells on the importance of the foregoing and says: "The plan, in many of its features, is such as England can honorably accept, and offers excellent prospects of an amicable settlement. Lord Salisbury has already hinted at something of the kind, and it may be assumed that on the main question of procedure the two governments have agreed. Happily, parliament has accepted the ministers a free hand."

"As a matter of fact delicate negotiations on the Venezuelan dispute are now in progress."

In the house of commons, Mr. Balfour asked that the agitation regarding the Venezuelan dispute cease, until the government had an opportunity to complete its negotiations.

### EXPECTS TO SWEEP THINGS.

Taubeneck Predicts a Great Silver Convention and Greater Victory.

ST. LOUIS, Feb. 18.—S. E. Taubeneck, chairman of the national committee of the People's party, who has established national headquarters here at the Lindell House, says that the Populist convention next July will be composed of 1,500 delegates and the convention of the Bi-Metallic league 2,500 delegates, so that when these two bodies combine in one convention the biggest strictly political assembly ever gathered in this country will be the result.

In an interview, Chairman Taubeneck said: "We will declare for the free and unlimited coinage of gold and silver at the ratio of 16 to 1, and rely confidently on the growth of that sentiment under the impetus imparted by the offense of the two old parties to strangle it, to carry us through and give us complete control of the Federal government."

The Money Taken from the Sub-Treasury to Buy Bonds.

## U. S. COURTS ATTACKED.

A West Virginia Lawyer Makes Some Sensational Charges.

WHEELING, Feb. 18.—A paper attacking the methods of the Federal courts in West Virginia, read by B. M. Ambler before the recent meeting of the State Bar association, has just been published. Mr. Ambler points out that, although West Virginia has only one-eighth of the population of the country, yet on the dockets of the United States court there are one-eighth of the total criminal cases in the entire country.

Mr. Ambler intimates that the courts are being used as mills to grind out fees. In proof of this he gives official figures to show that in 1895 out of 935 prosecutions in West Virginia there were but 391 convictions. The remaining 544 cases resulted in acquittals or were nolle. About the same proportion holds good for 1894 and 1893.

Among other things Mr. Ambler says, "So terrible are the delays and expenses of litigants that the well-to-do can hardly stand it, and the poor are rarely heard there as parties, except when the government is accusing of crime. Is there not some ground for the thought in their minds that the court is a mill for grinding fees for its attorneys? That the government has framed out her process for fleecing the friendless?"

### TERRELL'S DETERMINED ACTION.

He Gets a Missionary Released and Will Try Him Himself.

WASHINGTON, Feb. 18.—The state department has received a report by cable from United States Minister Terrell at Constantinople in reference to the case of the American missionary Knapp, who was arrested at Bitlis by the Turkish authorities on a charge of inciting rebellion on the evidence of certain Armenians who are now in prison. Mr. Terrell cables Secretary Olney that he has secured a suspension of the proceedings against the missionary and a safe conduct for him whenever the mountain can be crossed to Constantinople, where the minister himself will examine into the case.

When news of Knapp's arrest came to Mr. Terrell, he demanded that he be either released or that he (Terrell) be permitted to try him, and this cablegram indicates that he has succeeded in his purpose of removing the case from the Turkish officials.

## Base Ball.

Fry has not as yet received any con-  
tract from Portland, Ore., although it  
is expected at any time.

George Carey has signed no contract  
with Baltimore as yet, as their terms  
do not suit him. Carey does not care  
whether he plays in Baltimore or not,  
as he has several good offers from  
other clubs, should he secure his re-  
lease.

All the boys are practicing daily  
and will be in first class shape when  
the season opens.

The prospects for a good club in this  
city the coming season is bright, as  
the matter will be taken in hand by two  
well known sporting men, who will  
push East Liverpool to the front in  
base ball.

The football team will meet and  
organize in the near future, and an  
eleven is promised this city for next  
season that will be able to hold its own  
with the best football teams in the  
state. The past season was a very  
successful one for the team, consid-  
ering the fact that it was merely an  
experiment.

Joe Carey has received a very flat-  
tering offer from Westminster and  
will in all probability accept their  
terms and join that team for the  
coming season.

Among the beautiful scenic pic-  
tures shown in Othello Thursday  
night are: Street in Venice, Barba-  
nto's house, Venetian council cham-  
ber, Famagusta on the Island of  
Cyprus, Castle at Cyprus, Market  
place and Desdemona's bed chamber.

## Among the Sick.

E. W. Thompson, of Fourth street,  
is confined to his home with an attack  
of typhoid fever.

Miss Della Keeper, of Fourth street,  
who has been hovering between life  
and death for the past month, is rest-  
ing easier today, although still in a  
very precarious condition.

Mrs. Stapleton, of Spring street, is  
ill with an attack of congestion of the  
nerves.

So clever and picturesque is the act-  
ing of the Hanford, Spencer, O'Brien,  
Shakespearean dramatic company that  
it is a common thing for an audience  
to wait after the play and call the en-  
tire company, big and little, before  
the curtain.

## Cast Aside.

The Webber company presented  
"Cast Aside" at the Grand last night  
in an unusually clever manner, to a  
small audience. Tonight the com-  
pany will present "A Hornet's Nest"  
and "A Pair of Kids." Both plays  
are delightful farce comedies and  
should be greeted by a good audience.

"Dinners, luncheon and theater  
parties by the score," says the Buffalo  
Courier, "were given last week in  
honor of the presence in Buffalo of  
Charles B. Hanford, Elihu R. Spencer  
and Nora O'Brien."

## Full of Ice.

The river is full of floating ice, al-  
though it is not expected that it will  
freeze over. The Bedford and the  
Hudson will pass up to Pittsburgh to-  
night, and the Ruth is due down.

There is nothing cheap or tawdry  
about this revival of Othello. Star  
actors, processions, tableaux, scenery,  
costumes, music, calcium lights and  
decorations are all first class.

Go to rink supper, Tuesday,  
Feb. 18.

## LISBON NEWS.

The Happenings at the County Seat To-  
day.

Special to News Review.

Lisbon, Feb. 18.—Frank Duncan,  
manager of the electric light plant of  
this place, was severely burned about  
the face by a gas explosion at the gas  
works. His eyes escaped injury.

Exceptions filed by James H. Cus-  
ter, one of the executors of the late  
John Hollinger estate, Elkrum town-  
ship, to the inventory in the estate,  
were taken from the probate court to  
the common pleas court this morning.

Jacob Vanfossen took a judgment  
against Martha J. Phillips and O. C.  
Vodrey for \$1,188.17, due on a promi-  
sory note given August, 1894. The  
120-acre farm in Franklin township  
will be sold to obtain the amount.

Charles Kemmerling, the East Liv-  
erpool boy who was found to be incor-  
rigible, was sentenced by Judge Young  
this morning, and went to the boys'  
industrial school until he was 21 years  
of age.

Albert Rutter, a Salem bartender, is  
on trial in common pleas court today  
for selling liquor to an habitual.

The following marriage licenses  
were issued today: Harry Lowe and  
Edna Grafton, of East Liverpool;  
Thomas Miller and Minnie Bruce,  
East Liverpool, and William J. Alex-  
ander and Frances Haveland, Wells-  
ville.

## TO THE PUBLIC.

Here is something in which many resi-  
dents are interested.

For some time past, Harry MacKen-  
zie, in the handsome studio at the  
First National Bank building, has  
been turning out superb cabinet  
photos, at the wonderfully low price  
of \$1.50 per dozen, and the number of  
orders received in consequence has  
been almost beyond belief. Harry was  
doing this elegant work at such low  
figures for the express purpose of  
placing his pictures before the public,  
in order to show the artistic photos  
he is turning out. Having accom-  
plished his purpose, he had intended  
calling a halt on such low figures on  
the evening of Saturday, Feb. 15. But,  
in response to many calls for a con-  
tinuance of the price for a short time,  
he has decided to continue turning out  
first-class cabinets until March 1, in-  
clusive, at only \$1.50 per dozen. This  
date will positively close the low  
figures indicated, and you will do well  
to take advantage of the golden op-  
portunity offered. Don't weary and  
worry yourself. Take the elevator  
and step off into the studio.

## M'FADDEN ARRESTED.

Charged With Selling Liquor After  
Hours.

John McFadden, the Franklin  
street saloonist, was arrested by Of-  
ficer Earl this morning, charged with  
selling liquor after hours on Saturday.  
McFadden will stand trial and the  
case will be heard tomorrow after-  
noon. The officers are determined to  
break up the practice of selling after  
hours, and will use every legitimate  
effort to ascertain who the guilty  
people are.

## Went to Trenton.

M. E. Golding, member of the board  
of education, went to Trenton today  
to spend a few days at that place on  
business. Mr. Golding was asked what  
his opinion was in regard to the agita-  
tion caused by the East End school  
affair. He said that he was not suffi-  
ciently posted on it to venture an in-  
telligent opinion. He did not know  
very much about it until last night.

Three bright dramatic stars, an  
able company of assistants and a  
world of fine scenery are rare combina-  
tion offered in Othello, Thursday  
night.

## In the Squires Courts.

In Squire Manley's court the case  
of Mrs. Michael McKeever against  
Harrison Rinehart for \$62.50, amount  
due on order given to Daniel King  
for board. The case was compromised  
without going to trial.

In Squire Manley's court the Wheel-  
ing paper company were awarded  
judgment against McLean Brothers  
for \$24.07, balance due on account.

Nora O'Brien brings charms of per-  
son and mind and a fine quality of  
dramatic talent to Desdemona in  
Othello.

## Postponed the Case.

The case of J. C. and David Cun-  
ningham, of Hancock county, against  
John Finley, asking the court to issue  
an injunction preventing Finley from  
trespassing on the Cunningham farm,  
to be tried at New Cumberland today,  
has been postponed for a week.

Persons who have too often invested  
in profitless theatrical performances  
will get a chance to regain some of  
their losses by witnessing Othello.

## On a Decrease.

There has been a notable decrease  
in the number of applicants at the  
township trustees' office the past few  
days.

and a careful micro-

a valuable aid in  
determining the  
nature of many  
chronic diseases,  
particularly those  
of the nervous  
system, blood, liver,  
kidneys, and  
bladder. These  
aids make it pos-  
sible to treat such  
diseases success-  
fully at a distance, without personal exami-  
nation of the patient.

Thus Bright's Dis-  
ease of the Kidneys, Inflammation of the  
Bladder, Gravel, and other Diseases of the  
Urinary Organs, "Liver Complaint," Dys-  
pepsia, or Indigestion, Dropsy and many  
other maladies are successfully treated and  
cured without personal consultation with  
the physician.

Nervous Debility, whether resulting from  
over-study, worry, disappointment, or from  
exhausting drains upon the system caused  
by prurient secret habits contracted in  
youth, through ignorance of their ruinous  
consequences, is successfully managed,  
through correspondence, the necessary  
medicines being sent by mail or express.

Write for question blanks, or describe your  
case, send sample of urine for analysis and  
enclose to cents for postage on treatise,  
which contains reproduced photographs and  
full names and addresses of vast num-  
bers of people who have been cured in this  
way. Address, World's Dispensary Medi-  
cal Association, 663 Main St., Buffalo, N. Y.

Mr. Carroll is engaged in devising  
a formidable system of defense for lone  
pedestrians when they wander in dan-  
gerous places where police protection is  
ineffective and the risk of being "held  
up" is ever present. His plan is to con-  
vert the erect human body into a minia-  
ture revolving turret, armed at four  
points and capable of dealing death in  
front, rear or flank simultaneously or  
of sending four successive discharges  
in the same direction.

Mr. Carroll's design is still in its rud-  
imentary stage, with numberless minor  
details to be elaborated, but his central  
idea is well developed. He says he has  
not yet prepared diagrams or experi-  
mental apparatus, but has merely out-  
lined it mentally.

"I would have a small storage bat-  
tery worn in a belt," he said, "with  
small copper wires running from it up  
through the sleeves and connected with  
each hand on the great or middle finger  
with a copper ring the thumb can reach  
in the palm of the hand. When the  
thumb touched the ring, an electrical  
current would discharge four batteries  
loaded with ball behind and in front.  
This discharge could take place when  
the hands were being held under the  
threat of an armed robber.

"The ring should be placed beyond  
the reach of the thumb except in cases  
of emergency, so the thumb will never  
discharge the battery accidentally."

Mr. Carroll is not a practical electri-  
cian or mechanic, being an actor by  
profession. He has not figured up the  
weight of the storage battery to be car-  
ried on the belt, nor is he adverse to  
considering the advisability of substi-  
tuting a dry primary cell.

In his zeal for the application of sci-  
entific methods to the protection of the  
citizen the inventor has apparently left  
out of sight everything but the tactical  
advantage of the lonely pedestrian at-  
tacked in front by the bold marauder or  
clashed from behind by the lurking gar-  
rotter. Thus he has not yet figured out  
how a slim young man is to avoid as-  
suming Falstaffian dimensions when he  
braces storage batteries and arsenals  
around his waist.

Nor does he forecast the possibly trag-  
ical consequences that might some day  
result from the clasp of a loving hand  
upon the thumb and palm that carried  
the potential copper appendages he  
describes, making inadvertent electrical  
contact and producing a catastrophe  
when only endearment was intended.—  
Chicago Tribune.

GENERAL GRANT'S FUNERAL.

The Procession in New York Was Eight  
Miles in Length.

The procession, eight miles long,  
wended up Broadway between lines of  
old soldiers—flags veiled, drums muffled  
and arms reversed. The Grant family,  
except Mrs. Grant, who was unable to  
be present, followed in four carriages,  
succeeded by the general's old staff, his  
cabinet officers and detachments from  
Grand Army posts. Members of the  
Aztec club, survivors of the Mexican  
war, formed a group. President Cleve-  
land rode with Secretary Bayard, and  
they were followed by the vice president  
and the cabinet, the supreme court jus-  
tices, United States senators and a com-  
mittee of the house. Governor Hill and  
his suit and a committee of the state  
legislature were of the cortege; also gen-  
tlemen who had occupied diplomatic and  
consular offices under Grant while pres-  
ident. Besides all these were official  
guests filling 150 carriages.

Over the ashes of the man who had  
said "Let us have peace" all bitter  
memories were forgotten. Speaker Car-  
lisle and ex-Speaker Randall rode with  
Congressmen Hisecock and Reed, Senator  
Morrell with Senator Cockrell, Sherman  
with Ransom, Ingalls with Harris.  
Famous Confederates, distinguishable  
by their gray silk sashes, fraternized  
with Federal chieftains. Generals Joe  
Johnston and Buckner officiated with  
Sherman, Sheridan and Logan among  
the pallbearers. Three other gallant  
southerners, Wade Hampton, Fitzhugh  
Lee and Gordon, were also present at  
the funeral.—President E. Benjamin  
Andrews in Scribner's.

Moving in the Bowery.

There was a moving in the Bowery a  
few days ago, and it was watched with  
interest by a score or so of passersby.  
A stout Italian bootblack was transfer-  
ring his stand to some other part of the  
town. Just before the moving began the  
proprietor and his weakened little wife  
stood beside the stand. The little wife  
then put a dirty little pillow on her  
head and stooped a trifle. The husband  
thereupon picked up the stand with diffi-  
culty and balanced it on the little wom-  
an's head. Then he took the two chairs  
and placed them on the stand in such  
fashion as to secure them from falling.

The little wife, having straightened  
up under her burden and made sure of  
its equilibrium, started down the Bow-  
ery, and the stout husband followed at  
ease, puffing a cigarette, while the spec-  
tators looked on amazed to discover the  
usefulness of a wife as a beast of bur-  
den.—New York Sun.

Great Wear of Railroad Iron.

Taking the total length of the rail-  
ways of the world at even 60,000 miles  
and allowing a daily average of 10 trains  
over each road, it is estimated that the  
total loss of iron by wear and tear each  
day of the year is not less than 600 tons.  
The iron thus lost goes back to the earth  
in the shape of fine powder, which is  
finally transformed into soluble iron  
salts.—St. Louis Republic.

George Eliot's portrait represents her  
as having a remarkably unprepossessing  
face, with heavy nose and chin and  
thick, badly shaped lips. She would be  
pronounced positively ugly.

In 1880 the amount of capital invest-  
ed in cotton factories was \$208,000,000;  
ten years later it had risen to \$354,000,-  
000.

## Base Ball.

Fry has not as yet received any contract from Portland, Ore., although it is expected at any time.

George Carey has signed no contract with Baltimore as yet, as their terms do not suit him. Carey does not care whether he plays in Baltimore or not, as he has several good offers from other clubs, should he secure his release.

All the boys are practicing daily and will be in first class shape when the season opens.

The prospects for a good club in this city the coming season is bright, as the matter will be taken in hand by two well known sporting men, who will push East Liverpool to the front in base ball.

The football team will meet and organize in the near future, and an eleven is promised this city for next season that will be able to hold its own with the best football teams in the state. The past season was a very successful one for the team, considering the fact that it was merely an experiment.

Joe Carey has received a very flattering offer from Westminster and will in all probability accept their terms and join that team for the coming season.

Among the beautiful scenic pictures shown in Othello Thursday night are: Street in Venice, Barbantio's house, Venetian council chamber, Famagusta on the Island of Cyprus, Castle at Cyprus, Market place and Desdemona's bed chamber.

E. W. Thompson, of Fourth street, is confined to his home with an attack of typhoid fever.

Miss Della Keeper, of Fourth street, who has been hovering between life and death for the past month, is resting easier today, although still in a very precarious condition.

Mrs. Stapleton, of Spring street, is ill with an attack of congestion of the nerves.

So clever and picturesque is the acting of the Hanford, Spencer, O'Brien, Shakespearean dramatic company that it is a common thing for an audience to wait after the play and call the entire company, big and little, before the curtain.

The Webber company presented "Cast Aside" at the Grand last night in an unusually clever manner, to a small audience. Tonight the company will present "A Hornet's Nest" and "A Pair of Kids." Both plays are delightful farce comedies and should be greeted by a good audience.

"Dinners, luncheon and theater parties by the score," says the Buffalo Courier, "were given last week in honor of the presence in Buffalo of Charles B. Hanford, Elihu R. Spencer and Nora O'Brien."

The river is full of floating ice, although it is not expected that it will freeze over. The Bedford and the Hudson will pass up to Pittsburg tonight, and the Ruth is due down.

There is nothing cheap or tawdry about this revival of Othello. Star actors, processions, tableaux, scenery, costumes, music, calcium lights and decorations are all first class.

Go to rink supper, Tuesday, Feb. 18.

## TO THE PUBLIC.

Here is Something in Which Many Residents Are Interested.

For some time past, Harry MacKenzie, in the handsome studio at the First National Bank building, has been turning out superb cabinet photos, at the wonderfully low price of \$1.50 per dozen, and the number of orders received in consequence has been almost beyond belief. Harry was doing this elegant work at such low figures for the express purpose of placing his pictures before the public, in order to show the artistic photos he is turning out. Having accomplished his purpose, he had intended calling a halt on such low figures on the evening of Saturday, Feb. 15. But, in response to many calls for a continuance of the price for a short time, he has decided to continue turning out first-class cabinets until March 1, inclusive, at only \$1.50 per dozen. This date will positively close the low figures indicated, and you will do well to take advantage of the golden opportunity offered. Don't weary and worry yourself. Take the elevator and step off into the studio.

## McFADDEN ARRESTED.

Mr. Golding was asked what his opinion was in regard to the agitation caused by the East End school affair. He said that he was not sufficiently posted on it to venture an intelligent opinion. He did not know very much about it until last night.

Three bright dramatic stars, an able company of assistants and a world of scenery are rare combination offered in Othello, Thursday night.

A Des Moines woman who has been troubled with frequent colds, concluded to try an old remedy in a new way, and accordingly took a tablespoonful (four times the usual dose) of Chamberlain's Cough Remedy just before going to bed. The next morning she found that her cold had almost entirely disappeared. During the day she took a few doses of the remedy (one teaspoonful at a time) and at night again took a tablespoonful before going to bed, and on the following morning awoke free from all symptoms of the cold. Since then she has, on several occasions, used this remedy in like manner, with the same good results, and is much elated over her discovery of so quick a way of curing a cold. For sale by A. H. Bulger, druggist.

## Miss Anna Shaw.

The many friends and acquaintances in this city of Rev. Anna Shaw will be glad to learn that her work is spoken of in the highest terms of praise by the Pittsburg papers.

He was almost prostrated with a cold when he procured a bottle of Chamberlain's cough remedy. He says: "It gave me prompt relief. I find it to be an invaluable remedy for coughs and colds." For sale by A. H. Bulger, druggist.

## MR. CARROLL'S GREAT IDEA.

It Puts a Man at His Best When He Is Held Up by a Robber.

Taylor Carroll is engaged in devising a formidable system of defense for lone pedestrians when they wander in dangerous places where police protection is ineffective and the risk of being "held up" is ever present. His plan is to convert the erect human body into a miniature revolving turret, armed at four points and capable of dealing death in front, rear or flank simultaneously or of sending four successive discharges in the same direction.

Mr. Carroll's design is still in its rudimentary stage, with numberless minor details to be elaborated, but his central idea is well developed. He says he has not yet prepared diagrams or experimental apparatus, but has merely outlined it mentally.

"I would have a small storage battery worn in a belt," he said, "with small copper wires running from it up through the sleeves and connected with each hand on the great or middle finger with a copper ring the thumb can reach in the palm of the hand. When the thumb touched the ring, an electrical current would discharge four batteries loaded with ball behind and in front. This discharge could take place when the hands were being held under the threat of an armed robber.

"The ring should be placed beyond the reach of the thumb except in cases of emergency, so the thumb will never discharge the battery accidentally."

Mr. Carroll is not a practical electrician or mechanic, being an actor by profession. He has not figured up the weight of the storage battery to be carried on the belt, nor is he adverse to considering the advisability of substituting a dry primary cell.

In his zeal for the application of scientific methods to the protection of the citizen the inventor has apparently left out of sight everything but the tactical advantage of the lonely pedestrian attacked in front by the bold marauder or clasped from behind by the lurking garrotter. Thus he has not yet figured out how a slim young man is to avoid assuming Falstaffian dimensions when he braces storage batteries and arsenals around his waist.

Nor does he forecast the possibly tragic consequences that might some day result from the clasp of a loving hand upon the thumb and palm that carried the potential copper apparatus he describes, making inadvertent electrical contact and producing a catastrophe when only endearment was intended.—Chicago Tribune.

## GENERAL GRANT'S FUNERAL.

The Procession in New York Was Eight Miles in Length.

The procession, eight miles long, wended up Broadway between lines of old soldiers—flags veiled, drums muffled and arms reversed. The Grant family, except Mrs. Grant, who was unable to be present, followed in four carriages, succeeded by the general's old staff, his cabinet officers and detachments from Grand Army posts. Members of the Aztec club, survivors of the Mexican war, formed a group. President Cleveland rode with Secretary Bayard, and they were followed by the vice president and the cabinet, the supreme court justices, United States senators and a committee of the house. Governor Hill and his suit and a committee of the state legislature were of the cortege; also gentlemen who had occupied diplomatic and consular offices under Grant while president. Besides all these were official guests filling 150 carriages.

Over the ashes of the man who had said "Let us have peace" all bitter memories were forgotten. Speaker Carlisle and ex-Speaker Randall rode with Congressmen Hisscock and Reed, Senator Morrill with Senator Cockrell, Sherman with Ransom, Ingalls with Harris. Famous Confederates, distinguishable by their gray silk sashes, fraternized with Federal chieftains. Generals Joe Johnston and Buckner officiated with Sherman, Sheridan and Logan among the pallbearers. Three other gallant southerners, Wade Hampton, Fitzhugh Lee and Gordon, were also present at the funeral.—President E. Benjamin Andrews in Scribner's.

## Moving in the Bowery.

There was a moving in the Bowery a few days ago, and it was watched with interest by a score or so of passersby. A stout Italian bootblack was transferring his stand to some other part of the town. Just before the moving began the proprietor and his weakened little wife stood beside the stand. The little wife put a dirty little pillow on her head and stooped a trifle. The husband thereupon picked up the stand with difficulty and balanced it on the little woman's head. Then he took the two chairs and placed them on the stand in such fashion as to secure them from falling.

The little wife, having straightened up under her burden and made sure of its equilibrium, started down the Bowery, and the stout husband followed at ease, puffing a cigarette, while the spectators looked on amazed to discover the usefulness of a wife as a beast of burden.—New York Sun.

## Great Wear of Railroad Iron.

Taking the total length of the railways of the world at even 60,000 miles and allowing a daily average of 10 trains over each road, it is estimated that the total loss of iron by wear and tear each day of the year is not less than 600 tons. The iron thus lost goes back to the earth in the shape of fine powder, which is finally transformed into soluble iron salts.—St. Louis Republic.

George Elliot's portrait represents her as having a remarkably unprepossessing face, with heavy nose and chin and thick, badly shaped lips. She would be pronounced positively ugly.

In 1880 the amount of capital invested in cotton factories was \$208,000,000; ten years later it had risen to \$354,000,000.
